The Canadian Fossil Discovery Centre is dedicated to educating and challenging the minds and imaginations of individuals. We invite you to join us in exploring the geological and paleontological history of Southern Manitoba.

The program begins at the Canadian Fossil Discovery Centre (CFDC) with an explanation of how this area was once submerged beneath an ancient sea. The tour features a 13m (43ft) Mosasaur along with many other marine creatures of the late Cretaceous Seas – from plesiosaurs to ammonites and sharks. The tour also includes rock types and their roles with fossils. Students will learn about fossil collecting techniques, identification and the significance of fossils; tours are age specific and can be targeted to a specific class unit.

Each tour is age specific and emphasizes key concepts of the science curriculum. Following the tour, our guides lead the group in hands-on, grade appropriate, activities. Large groups are divided into two groups. This will require more time spent at the museum as the groups will start their tour approximately 15 minutes apart. The Museum Tour program is 60 minutes long for pre-school and kindergarten levels and 90 minutes long for grades 1 to S4.

The all day tour provides students with a full day of learning and fun. An on-site classroom is designed to provide room for games, activities and crafts. Lunch can be provided by the Recreation Centre or students can bring a bag lunch. Contact Program Coordinator Lisa Kruger at (204) 822-5431.

- Payment accepted: cash, cheque and debit/credit. An invoice will be provided upon request only and may be sent before tour.
- Our gift shop will be open and offers a wide variety of souvenirs, books, toys, rocks and fossils starting as low as \$1.00.

**Travel time, by school bus, from Winnipeg (Hwy 3 & Perimeter Hwy)  
is approximately 1 hour and 45 minutes.**

*Thank you very much for your help in making this an excellent tour for your group.*
